

1088

As a guardian of a resident of STS, I'm asking you to please reconsider supporting any legislation (SB 1088) that supports closing Southbury Training School.

My Aunt has been a resident of the school for more than 70 years and it's her home. There are many needs that can't be met in group homes and out patient facilities. STS should be kept open and if anything supported more as a avenue for the many who still suffer from their various struggles.

Thanks in advance for this opportunity for me to artciulate my concerns.

Sincerely,

Joe Dirzius
